## Wireframes

Made with Excalidraw

A hand-drawn wireframe of a form titled "CREATE". The form is enclosed in a rectangular border. At the top, the word "CREATE" is written in a bold, sans-serif font. Below the title, there are four main input sections, each preceded by a wavy line representing a label. The first section is a large rectangular box labeled "Add question". The second section is another large rectangular box labeled "Add answer". The third section is a smaller rectangular box labeled "Add tags divided by comma", containing the handwritten text "green, blue, red". Below the tags section is a rectangular button labeled "SUBMIT". At the bottom of the form is a fixed footer/navbar containing four icons: a house, a bookmark, a square with wavy lines, and a person's head. Arrows point from text labels to each of these elements.
